#### SENATE CONCURRENT RESOLUTION 24—EXPRESSING SUPPORT FOR A NATIONAL REFLEX SYMPATHETIC DYSTROPHY (RSD) AWARENESS MONTH

Mr. LIEBERMAN submitted the following concurrent resolution; which was referred to the Committee on Health, Education, Labor, and Pensions:

S. CON. RES. 24

Whereas reflex sympathetic dystrophy (referred to in this resolution as "RSD") is an extremely painful progressive disease of the nervous system resulting from a simple trauma, infection, or surgery that can lead to chronic inflammation, spasms, burning pain, stiffness, and discoloration of the skin, muscles, blood vessels, and bones;

Whereas RSD can strike at any time, and currently afflicts an estimated 7,000,000 children and adults, the majority of whom are women;

Whereas RSD is a complex and little-known disease, inhibiting the early diagnosis and treatment needed for recovery and contributing to dismissals of patients' pain and suffering;

Whereas there is no known cure for RSD and treatment involves multiple medications and therapies with costs that can be prohibitive;

Whereas Betsy Herman established the RSDHope Teen Corner in 1998 and she and countless others advocates have worked tirelessly to provide information and support to RSD sufferers and their families and friends and to bring national attention to this crippling disease; and

Whereas each May is Reflex Sympathetic Dystrophy Awareness Month, the goal of which is to educate the public about the nature and effects of this terrible disease: Now, therefore, be it

*Resolved by the House of Representatives (the Senate concurring),* That it is the sense of Congress that—

(1) all Americans should take an active role in combatting reflex sympathetic dystrophy (RSD) by recognizing its symptoms (which often follow an injury or surgery), such as constant burning pain, skin irritation, inflammation, muscle spasms, fatigue, and insomnia;

(2) national and community organizations should be recognized and applauded for their work in promoting awareness about RSD and for providing information and support to its sufferers;

(3) health care providers should continue to increase their efforts to diagnose the disease in its earliest possible stages to increase the likelihood of remission; and

(4) the Federal Government has a responsibility to—

(A) endeavor to raise awareness about the importance of the early detection and proper treatment RSD;

(B) work to increase research funding so that the causes of, and improved treatment and cure for, RSD may be discovered; and

(C) continue to consider ways to improve access to, and the quality of, health care services for detecting and treating RSD.
